There you sit at your desk in a foggy haze, on edge and exhausted from yet another unsettling night of tossing and turning.

Listen, if you have menopausal symptoms like insomnia, night sweats and mood swings, I have very good news for you.

You won't believe how miserable I was with all those things, and trying to keep up with my kids and work and husband - I mean, I was only 42 but it felt like I was 82!

My doctor gave me one of those hormone replacement drugs.

However, I felt uncomfortable about the risk of heart disease, stroke, blood clots and cancer. So, I put off taking them.

I just didn't feel right about putting these drugs in my body, but what could I do? I desperately wanted to get my energy back, be able to sleep at night and enjoy life like I used to.

I was about to give up and go on the medication when I heard something on the news about a medical doctor who incorporated ancient healing arts dating back over 3000 years into his practice.

At the Koda Wellness Center, they go beyond looking at symptoms and dig deep into every aspect of the inner workings of your body to provide you with the best possible care.

So I went to Koda Wellness Center, and in just three days I can't tell you how much better I felt!

It was like the fog just lifted, I was back to my old energetic, fun-loving self and my kids and husband were as relieved as I was!

If you have hot flashes, night sweats or any of the symptoms of menopause and don't want to risk drug therapy, you owe it to yourself to visit the Koda Wellness Center.

And right now if you're one of the next 37 people to call 1300 368 929 from 9 to 5 weekdays and quote "M2" to the receptionist, you can get one of their "Breeze through Menopause" Consultations, normally priced at \$297, absolutely FREE!

Call or click the button below right now while this offer still lasts - I know you'll be glad you did!

(Button, CTA and phone number appears below video with promo code, 37 crossed off with red, and "ONLY 13 LEFT" hand written in)
